The statement contains information on provisional amount of the old age pension on the date of planned retirement.

The planned pension is calculated by using:

- information at the disposal of the State Social Insurance Agency (SSIA) on employment and equivalent periods of each person until 31 December 1995 which has been registered in the database of SSIA, or which the person himself/herself has submitted to SSIA;
- information on actually paid social insurance contributions to the 1st pillar pensions as of 1996, for which SSIA has received information until the moment of calculation.

The projection does not account for the capital accrued in the 2nd pillar pensions or State-funded pension scheme, allowances and guaranteed minimum pension amounts stipulated by the Law on State Pensions. If employment is continued, the projected pension amount will be changed also after annual indexation of the pension capital. The planned pension amount is informative by nature.

Data contained in the portal www.latvija.lv is updated once per week.

Process description

Service requests

To request the service, you must fill in for a particular form submission addressed to the SSIA.

May submit a submission:

- on the www.latvija.lv portal;
- on-site (if requested for service, a personal identification document (passport or ID card) must be produced);

- electronically (the application must be signed with a secure electronic signature containing the time stamp);
- by post.

An application may be submitted in person to any VSAA customer service centre or to the unified customer service centres of the State and local governments.

Receipt of services

The service may be received in person, by post, in the official electronic address or in the portal www.latvija.lv, in accordance with the type of receipt of the information indicated in the application.
