

E-services

Published: 30.10.2020.

For customer convenience, the SSIA offers to use e-applications for requesting services of the SSIA on the Single Country and Local Government Portal in www.latvija.lv.

This option may be used in cases where the information required to grant the service is already available to the SSIA and the service applicant does not have to provide additional documents.

In order to follow the process of processing your application, it is possible to receive a message from the applicant for the SSIA in the mobile phone or e-mail that the application submitted by www.latvija.lv has been accepted and that the SSIA decision has been taken.
